

## HELLO, STUDENTS

By now, you are thinking of spending post examination vacation meaningfully. Some of you will go on tour, some of you will be back at home invigorating yourself for some good ideas.

The North Eastern Regional Institute of Water and land management, Tezpur (NERIWALM) (An institute under the Ministry of Water Resource, River development & Ganga Rejuvenation, Govt. of India) has been pursuing a noble idea of sailing the minds of young generation into the insights of science in environments. Well, NERIWALM is going to conduct a self financed hands on training programme, tailor made for 10<sup>th</sup> standard students on “ Analysis of Environmental Parameters- basic soil and water science” during 9<sup>th</sup> April to 13<sup>th</sup> April at its premise.

### AFTER COMPLETION OF THE COURSE YOU WILL BE ABLE TO KNOW

*Why does the soil and well water of my backyard tastes sour and how ? How will you measure it?*

*Three alphabets and plants- what are they? How will you measure them?*

*Your have been said that your soil is clay or sandy or silty. Is it so?*

*Let's DIY a soil profile on your art paper.*

*Why does your well water smells fishy or metallic? What are the water contaminants? How will you analyse them?*

*Are you not going to help flood victims with safe drinking water? You will learn here.*

*So on, so forth....You will do a project work under hand holding expert guidance of faculty members of NERIWALM and upscale your ignited minds.*

**Registration fee:  
Rs. 2000.00 per  
candidate**
